What should our highest priority be in a new building project?

Worship

- 1. Worship Space and Gathering area
- 2. Adequate spaces for Worship & education with updated lighting and appearance
- 3. Renovate & Beautify Sanctuary
- 4. Update the interior area of the Worship space
- 5. A larger worship area

Fellowship Hall:

- 1. A Handicapped accessible Fellowship area; no Elevator.
- 2. A ground level Fellowship Hall would serve many purposes
- 3. Meeting the space and function demands of current/future needs
- 4. Larger Fellowship area & Sunday School rooms
- 5. Ground level accessible Fellowship Hall
- 6. Up-to-date/Larger facility & plans for future growth
- 7. A ground level, handicapped accessible Fellowship Hall, modern kitchen & sink drains that don't gurgle
- 8. Fellowship Hall
- 9. Fellowship Hall - Ground Level
- 10. Fellowship Hall - Ground Level and adequate parking
- 11. Fellowship Hall & Kitchen
- 12. Adding space & updating the Fellowship and Youth spaces while keeping the traditional look of the building & worship space
- 13. Larger, ground level Fellowship Hall
- 14. Larger Fellowship Hall with newer, larger kitchen area
- 15. A new Fellowship Hall first; also a larger worship area for growth; two services are a negative; service during the week
- 16. Fellowship Hall, then basement could be dedicated to classroom area
- 17. Fellowship Hall for events
- 18. Larger fellowship hall would be awesome
- 19. Fellowship area

Youth & Family:

- 1. Keeping the Youth in mind
- 2. Meeting needs of a growing church & attracts new, younger membership
- 3. Build large enough to have a gym for families, kids, community to use & attract more families
- 4. Adding youth group space and technical A/V/Networking enhancements throughout the church
- 5. More space to serve our youth education with updated lighting and appearance

- 6. Education with updated lighting and appearance
- 7. Youth

Other:

- 1. Parking paved
- 2. Usefulness
- 3. Retain the character of the church
- 4. Keep the traditional look of the church while updating and making rooms larger
- 5. Proof that it is truly needed
- 6. Keep the church looking old fashion
- 7. Make stuff more accessible; bathrooms, more reliable elevator
- 8. Make certain membership will grow enough to justify it - don't assume, "if we build it, they will come"
- 9. Youth - Gymnasium; room of their own for Activities

Other Comments:

- 1. Older members need to engage in more 'outreach' to our own disappearing youth and help with Youth activities and S.S.
- 2. Need handicapped accessible choir loft; choir is restricted to only the able-bodied
- 3. Steps to balcony ought to be updated
- 4. Music other than an organ & piano. If talent not available, then recordings
- 5. Suggest we consider building a whole new facility
- 6. Steps to balcony need improving
- 7. If the Fellowship Hall remains in the basement, then the elevator needs to be redone - maybe larger
- 8. We need an updated elevator; that one feels like a death trap
- 9. Fund any new projects with cash; no borrowing
- 10. Keep our church traditional but still add technical advancements and updated youth group space
- 11. When and if the church has enough members that we need more space then expand, but not until
- 12. Maybe enlarge the worship area so that if we grow, we can still have one service rather than two - or have a weekday service
- 13. I feel the 9:00 a.m. service is good; we should stress to parents the importance of their kids attending Sunday School
- 14. Need a better parking area
- 15. Invest in Mission trips for our members & youth to get them involved in Christian outreach
- 16. Add more Worship Services
- 17. I would also like our Youth Group to be more involved with other churches/community events
- 18. Finished cement parking lot
- 19. Make the (current) fellowship hall useful for other gatherings, like LYF
